### Ontario Breast Screening Program / Diagnostic Imaging Centres providing breast screening Dufferin County

#### Ontario Breast Screening Program (OBSP)

**Appointments: 1-800-668-9304 / General Enquiry: 1-866-662-9233**

**The Ontario Breast Screening Program (OBSP)** is a province-wide, organized cancer screening program that provides high-quality breast cancer screening throughout Ontario to 2 groups of women. The program recommends that:

- most women ages 50 to 74 be screened every 2 years with mammography
- women ages 30 to 69 who are confirmed to be at high risk of getting breast cancer be screened once a year with a mammogram and breast magnetic resonance imaging (MRI) (or, if MRI is not medically appropriate, screening breast ultrasound). Women ages 30 to 69 who meet any of the following criteria should talk to their doctor about referral to the High Risk Ontario Breast Screening Program:
  - Is known to have a gene mutation (e.g., BRCA1, BRCA2)
  - Is a first-degree relative (parent, brother, sister or child) of someone who has a gene mutation (e.g., BRCA1, BRCA2)
  - Has a personal or family history of breast or ovarian cancer
  - Has had radiation therapy to the chest to treat another cancer or condition (e.g., Hodgkin lymphoma) before age 30 and at least 8 years ago
  -

#### **Communication to Women and Healthcare Providers**

- Women eligible for screening through the OBSP are sent invitations to be screened in the OBSP, along with information about breast cancer screening and details on how to find an OBSP site.
- Result letters are sent to women after their screening visit.
- Women screened in the OBSP are sent recall and reminder letters when they are due for their next round of screening.
- OBSP sites follow up on abnormal screening results and communicate both normal and abnormal results to a woman's healthcare provide
